

Certified Livestock Manager Training

August 3rd, 2017

Paulding County Ohio State University Extension
503 Fairground Drive, Paulding, OH 45879

Purpose

Manure from large livestock and poultry farms can be an asset as an organic fertilizer when handled and recycled properly. It can also be the largest liability for a farm if handled incorrectly. The Ohio Department of Agriculture is sponsoring a 1-day Certified Livestock Manager Training session for any farmer, producer, or custom applicator who needs Certified Livestock Manager continuing education units or those who just want to learn more about best manure management practices. As nutrient management (whether with manure, commercial fertilizer, biosolids, etc.) and water quality remain at the forefront of concern for both agriculture, environmentalists, and the public, education is a key component to making the right decisions in the field.

- This one-day training will cover topics such as nutrient management, water quality issues, record keeping practices, manure technology and equipment, spill response, and a review of the rules and regulations concerning manure handling.
- Individuals attending this training will receive **5.0 hours** of continuing education units toward a Certified Livestock Manager certification.
- Following this training session, Paulding County OSU Extension educators will be holding a 3-hour Fertilizer Applicator Certification Training. This training session will be from 6PM to 9PM at the same location and is free to all attendees. There are **3.0 hours** of continuing education units available for this training.

Who should attend?

- Anyone who buys, sells, land applies or transports manure who wants to learn more about best management practices.
- Owners and operators of any size or type of animal feeding facility.
- Anyone needing Certified Livestock Manager continuing education units.

Certification Requirements

To receive Certified Livestock Manager certification through the Ohio Department of Agriculture, a farmer or custom applicator must acquire 10 hours of continuing education units, complete the Certified Livestock Manager application and submit the \$50 application fee payable to: Ohio Department of Agriculture. For more information, visit our web site at: www.agri.ohio.gov/divs/dlep/dlep.aspx and click on "Licensing Requirements".
