

The Clover Connection

*Building Better Lives and Stronger Communities
through Paulding County 4-H*

March/April | 2018

Welcome

Michael's Note

The 2018 Paulding County 4-H year continues to be strong. Three hundred seventy four youth have enrolled in 4-H in Paulding County this year. These numbers are nothing short of amazing. As we enter the second half of the 4-H year in Paulding County, we will continue to provide exciting opportunities for the youth already enrolled in 4-H as well as opportunities for others to get involved with 4-H in Paulding County.

The future of 4-H in Paulding County looks strong. With the numbers we have enrolled in 4-H this year as well as the 4-H programming that is taking place in the schools across the county, 4-H has made its mark on the development of youth. Continued programming opportunities are being sought to reach as many youth as possible in Paulding County to show them what 4-H has to offer.

Work is also continuing in the office to prepare for the 2018 Paulding County Fair. This work begins with you. It is important for you to log into 4-H Online to check the projects you have enrolled in for 2018. The project information must be accurate in order to secure judges and prepare for your project interview. If you have difficulties with this, check with your club advisor to see what projects you have enrolled in or contact the Extension Office and we will be able to assist you.

Best Wishes,

Michael Schwinsky

Calling All Seniors

The end of the school year is quickly approaching and I'm sure many of the Seniors have begun their count down. Paulding County 4-H wants to recognize all Seniors for their excellence. To do this, it is requested that all 4-H Seniors complete a Senior Information Profile. Your Senior Profile will be mailed to your home address. If you have not received your profile by April 1st, please call Michael at 419-399-8225 to obtain one. The information you provide on the profile sheet is what will be used to create our Senior Spotlight in the next newsletter. Skillathon

Skillathon is scheduled on Wednesday, May 30th. This event will start at 4:00 pm and will end at 7:00 pm. Parents should plan on youth taking about 30 minutes per species. There have been some changes this year that I want to be sure everyone is aware of. Below is an outline of these changes. If you have any questions about Skillathon please feel free to contact Michael.

- When you sign in at Skillathon your record book will be collected. A group of volunteers will be grading these books. The books will be returned to you as soon as they have been graded.
- Your face-to-face interview will be an actual interview. The interviewer will not be looking at your record books during this time. They will be asking you questions about your project to see what you have learned through your project experience.
- Skillathon grades will be very important. Youth ages 9-11 will be required to score at least a 65%, youth ages 12-14 will be required to score at least a 75%, and youth ages 15-18 will need to score at least an 85%. If you fail to meet the minimum score for your age group, you will not be eligible to show for grand or reserve grand champion.

Skillathon study guides are now available through the Extension Office. These study guides must be e-mailed to you due to copyright laws. If you would like a study guide please contact the Extension office by phone at 419-399-8225, e-mail Michael at Schweinsberg.5@osu.edu, or Katie at gorrell.42@osu.edu. The study guides will be very helpful in helping you prepare for Skillathon. The Winning 4-H Plan is available for any youth enrolled in 4-H who is also on an IEP at school. Contact Michael for more information.

Project Spotlight

This edition of the Clover Connection spotlights the 4-H project # 491: *It's My Home*. This completely revised beginning level project takes the place of *Adventures in Home Living*. In this project, you will learn to be a big contributor to your household in so many ways. Why not do so AND keep your own sense of style? This project covers basic design elements, organization, upcycling, and service learning. All the activities can be done with your excellent decision-making, good taste, and a big heart. This project is new for 2018 and has not been reviewed on Project Central. We encourage you to take a look at this project to see what you can do to make a difference in your own home.
